SUMMARY

Aspiring Full Stack Developer with AI with a strong foundation in backend frameworks and front-end technologies. Passionate about building scalable web applications and solving complex problems using Python. Seeking opportunities to contribute and grow in a dynamic development environment.

EDUCATION

Bachelor of Technology

Information Technology(IT)

Vel Tech High Tech Dr. Rangarajan Dr. Sakunthala Engineering College

2022 - 2026

CGPA:8.2/10

Higher Secondary

Saraswathi Matriculation Vidyalaya Higher Secondary School

2020 - 2022

66%

SSLC

Saraswathi Matriculation Vidyalaya Higher Secondary School

2019 - 2020

90%

TECHNICAL SKILLS

Languages: Python, Java, C, Javascript/Typescript

Frontend: Html, Css/Tailwind Css, Bootstrap, React

Backend: Django, Spring Boot, Flask, Node.js, FastAPI, REST API

Libraries: Pandas, NumPy, Matplotlib

AI/ML: LLMs, RAG, LangChain, LangGraph, Fine-tuning, Vector Databases

Databases: MySQL, PostgreSQL

Version Control: Git, GitHub

Tools: Postman, CI/CD Pipelines

Cloud: AWS, Docker, Kubernetes

PROJECTS

Charity Support for Orphanage Needs Using Web Development

Developed a web platform connecting donors with orphanages, enabling contributions of food, clothing, and educational materials. Integrated real-time updates and notifications to keep donors informed about requirements and donations.

Tools: HTML, CSS, JavaScript, React, Python, Django, FastAPI, PostgreSQL, Postman

Sentiment Analysis Tool Based on Machine Learning

Developed a web-based platform to analyze customer reviews and classify them as positive, negative, or neutral. Built machine learning models in Python for sentiment classification and text processing.

Tools: HTML, CSS, JavaScript, React, Python, Django, FastAPI, PostgreSQL, Postman, LLM, Fine-tuning

Zerds Online Judge Compiler System

[Live Demo](#)

Developed a browser-based platform that allows users to write, compile, and execute code in multiple programming languages with real-time output and input handling.

INTERNSHIP

NSIC Python with Data Science Intern

Jun 2024 – Aug 2024

- Implemented NLP preprocessing techniques like tokenization, stop-word removal, and lemmatization.
- Used Matplotlib for visualizing sentiment trends and generating reports for business insights.
- Technologies Used: Python, NLP, Pandas, Django, MySQL

CERTIFICATION

- **AI Full Stack** at Guvi's
- **SpringBoot introduction to Ai** at Infosys

PROFESSIONAL SKILLS

- Problem Solving
- Logical Thinking
- Adaptability
- Team Management
